Native trees ...

- ❖ *Have evolved with native butterflies and birds over time*
- ❖ *Provide the right size and shape seeds, nectar, leaves and habitat for native wildlife*
- ❖ *Form the foundation for the ecosystem that defines the Shenandoah Valley*
- ❖ *Have wings!*

Luna moth

The Headwaters Soil and Water Conservation District offers technical guidance and agricultural cost-share programs to citizens of Augusta County, Staunton and Waynesboro on best management practices that enhance water and soil quality.

The Headwaters District encourages citizens to plant native tree species as the foundation for the species of butterflies and birds that define our region, creating the pollinator biodiversity that serves as the most basic life insurance. .

This tree seedling sale is a fund- and awareness- raiser. All proceeds are used to support Headwaters education programs. For larger quantities of native trees, call the VA Department of Forestry Nursery at 540-363-7000.

Headwaters SWCD programs, activities and employment opportunities are available to all people regardless of race, color, religion, sex, age, national origin, disability or political affiliation. An Equal Opportunity Employer

The Commonwealth of Virginia supports the Headwaters Soil and Water Conservation District through financial and administrative assistance provided by the Department of Conservation and Recreation. Headwaters is also supported by Augusta County, Staunton and Waynesboro.
